For almost 20 years Gunther Holtorf has toured the world with his Mercedes off-road vehicle. During that time he has traveled more than 400.000 miles and has visited 180 countries.

From the very beginning his three Zarges aluminum cases have been reliable companions during his expedition. Throughout that time the Zarges aluminum cases have been reliable and leak tight, even under extreme environmental conditions. The aluminum cases are secured to the roof rack and contain critical spare parts.

“ The boxes do show some wear after this long time period, but will again be indispensable and reliable companions during my next expedition” states Gunther Holtorf.
